**Global Opportunities at Tech**
**Student Center Ballroom**
You are invited to come learn about global opportunities at Georgia Tech. Did you know that 58% of Tech undergraduates study abroad? Tech students can study, research, or intern abroad, participate in service abroad, or get involved with many international activities on-campus while interacting with our diverse student body. This session will be informative and fun. We look forward to seeing you there!
**Presented by:** Samantha Abbey, Education Abroad Coordinator, Office of International Education

**Connecting Students to Alumni: How Students Begin Building Their Networks Now**
**Student Center Theater**
The Student Alumni Association is a student organization on campus that focuses on connecting students to alumni. We do this through programs and events that introduce our students to our Georgia Tech Alumni Network. Our signature program, Mentor Jackets, gives current Tech students the opportunity to be paired with Tech alumni for an academic year to work on personal and professional development. Join us at this seminar to learn more about this award-winning program and hear how the program has enhanced the Georgia Tech careers of Mentor Jackets participants!

Alternative Service Break Trips

*Student Center, Peachtree Room*

Alternative Service Breaks (ASB) at Georgia Tech partners with the Center for Student Engagement to provide affordable and meaningful service trips to Georgia Tech students during school breaks. Each break, ASB sends multiple groups, student leaders, and faculty advisors, to cities over the globe on these group-oriented community service trips that promote student leadership development, personal reflection, and education around service issues. We would love to share with you our past trip experiences as well as opportunities for students to get involved with ASB in the upcoming year!

Pre-Med at Georgia Tech?

*Student Center, Room 319*

As Georgia Tech does not have a designated pre-med major or minor, it is important to choose classes carefully to ensure that you will be adequately prepared for medical school and the MCAT! Advisors and organizations on campus can help you amp up your pre-med resume! Join us at this seminar to learn more about how to pursue medicine at Georgia Tech! Hear about how the resources we have on campus can shape the perfect pre-medical student and prepare them for medical school!

The Lego Brick – More Than a Toy

*Student Center, 301*

The quintessential LEGO brick is a 4x2 brick. Eight of these bricks can combine in 915,103,765 ways. But, did you know that building with LEGO bricks can unleash the imagination and potential that is normally untapped by the logical mind? Through a hands-on, interactive group play approach, participants in this session will unlock their potential, enhance communication and collaboration skills, and have a little fun in the process.

**Presented by:** Stacey Doremus, Assistant Director of LEAD Programs and Systems

Connecting through Snapchat and Instagram

*Student Center, 320*

With the new generation using social media for everything, it is important for parents to stay up to date and have access to tools to help them have a better relationship with their children. The session will cover fun and interesting topics ranging from reading news on social media to using dog filters.

Urban Honey Bee Class

*Clough Undergraduate Learning Commons, Room 102*

The Georgia Tech Urban Honey Bee Project is an interdisciplinary education, research, and service program for undergraduates. We have an apiary on the roof of Clough Undergraduate Learning
Commmons as well as hives in urban farms and community gardens in West Atlanta. This class will introduce you to our project and the importance of honeybees. Participants will have the opportunity to view our beehives through a window.

**Presented by:** Jennifer Kraft Leavey, Ph.D., Integrated Science Curriculum Coordinator, College of Sciences

**12:00 P.M. – 12:45 P.M.**

**Yellow Jacket Ed Session II**
Select from various staff presentations to learn more about campus life at Georgia Tech. **Please note:** space is available on a first-come, first-served basis.

**Supporting First-Year and Second-Year Student Success @ Georgia Tech**

**Student Center Ballroom**
The first two years at Georgia Tech establish the foundation for a successful undergraduate experience. This panel will include faculty and administrators from the Office of Undergraduate Education, Division of Student Life, College of Sciences, and College of Computing who will share insights and strategies for succeeding (and thriving) during this important period. Panelists will highlight resources that help support student success.

**Panelists:**
Dr. Ed Greco, Academic Professional, School of Physics  
Dr. Carrie Shepler, Director of Freshman Chemistry, School of Chemistry and Biochemistry  
Dr. Beth Spencer, Director of Undergraduate Academic Advising  
Mr. John Stein, Vice President for Student Life and Dean of Students

**Young Alumni Panel**

**Student Center, Peachtree Room**
Recent Georgia Tech alumni leaders relay how their experiences at Georgia Tech have shaped their current pursuits and discuss what essential knowledge they gained from the Georgia Tech experience to increase their chances for success in the “real world.” The panel will consist of young alumni from different fields and backgrounds (from finance to law to acting – to name a few); guests will learn how Georgia Tech prepared them for whichever path they chose.

**Facilitated by:** The Georgia Tech Alumni Association

**Grand Challenges Living Learning Community**

**Smithgall Student Services, Room 117**
Dr. Wes Wynens and Dr. Jeff Davis will provide an overview of the Grand Challenges courses and ask participants to attempt exercises that embody the Grand Challenges’ class experience.

Dr. Wes Wynens: Teams and Collaboration
The content of this course draws upon the literature of critical thinking, cognitive science, creativity
and innovation in social science, science, and engineering, as well as the literature of team and group dynamics. The course combines these elements in a context within which students apply their learning to broad societal challenges.

Dr. Jeff Davis: Exploring Grand Challenges
During this class, we will explore cognitive biases that can occur in problem solving that can hinder innovative solutions. Students will work on exercises in teams to explore this issue and discuss lateral thinking strategies to overcome these biases.

Learn More about Georgia Tech’s Student Government Association

Student Center, Room 321
Here at Georgia Tech, the mission of the Student Government Association is to empower student organizations, embody student opinions, preserve student integrity, and enrich the student experience. We accomplish our mission everyday by advocating for students to Georgia Tech’s administration, funding student organizations by appropriating the Student Activity Fee, and upholding student integrity in hearing cases involving the student code of conduct. Join us this afternoon to hear from our panel about what comprises the Yellow Jacket student experience, and what’s it's like to be involved in Georgia Tech’s Student Government Association!
